

## **Woody Jackson**

With over 45 years of experience in the marine industry, Woody Jackson has owned and operated boat dealerships and marinas in Maryland and Florida. His career also included running a retail boat dealership in Pennsylvania, along with managing an insurance agency. After four decades of leading these businesses, he initiated a succession plan with his family. The consensus led to the decision to sell the various entities, including the real estate. Over an 8-year period, Woody successfully prepared and sold the marinas, boat dealership, and insurance agency, either independently or with the assistance of a business broker.

Throughout his career, Woody actively contributed to several boards and organizations. He served on the Board of Directors for Bay First Bank, was a board member of the Maryland Marine Trades Association, and a member of the Marine Retailers Association. Additionally, Woody was involved with the Maryland Department of Natural Resources as a board member of the Boat Dealer Group, participated in the Regal 20 Group, and contributed to the Economic Development Council of Cecil County.
